Ronald McDonald House® Northern California

Pop Tabs

Pull together | Make a difference

Collecting pop tabs is a simple way to share our mission and support the importance of recycling while raising funds to help sick children and their families!

Why save pop tabs?

A pop tab is the small metal tab on the top of aluminum beverage cans. Ronald McDonald House Northern California collects pop tabs instead of entire aluminum cans because it is more hygienic to store tabs than cans, and collection and storage is easier. The program allows people of all ages to support Ronald McDonald House Northern California and know they are making a difference for families and children.

What do we do with the pop tabs?

Ronald McDonald House Northern California collects these pop tabs to recycle and put the proceeds towards the Adopt-A-Family Program. This program helps subsidize the cost of families staying at the Sacramento Ronald McDonald House.

It's easy to start collecting pop tabs.

Here's how...

- Print out our pop tab label – attached
- Place the container at home, work, school or any location people drink canned sodas.
- Glue it to a container of your choice.
- Pull the pop tab off your can before recycling.
- Spread the word! #forRonaldMcDonaldHouseNorCal
- Drop your donations off at the Sacramento Ronald McDonald House!
